ICA License Conversion and Validation

For **FAA conversion** candidate, there is only a conversion test and no flight test required. If candidates require ICA to provide assistance on passing the test or familiarization training, ICA will be delighted to offer services according to the hourly rate.

For **Non-FAA** license validation candidate, there is no flight test and no written test. Candidates only need to follow procedures similar to acquiring a **Student Pilot Permit** and fulfill the requirement set by Transport Canada (TC).

For **Non-FAA CPL** conversion candidate, both written test and flight test are required. Candidates need to follow procedures similar to acquiring a **Student Pilot Permit** and prepare for the flight test and written test. Candidates usually require at least 20hrs dual and 5 hrs of solo in order to familiarize themselves with TC flight test standards. Feel free to refer our **RPP program cost** as a reference for conversion costs on the flight training part since they have the same estimated required hours.

For details about Licensing requirements, feel free to refer to CARS- Standard 421 for further information or contact ICA.
